

Induction heaters offer a safe & effective method of mounting bearings, couplings, pulleys and other workpieces.

## TIH 220m

### Large 230v induction Heater

For bearings with a bore diameter from 60mm to 600mm & up to a maximum weight of 300kg

## TIH 100m

### Medium 230v induction Heater

For bearings with a bore diameter from 20mm to 400mm & up to a maximum weight of 120kg

## TIH 030m

### Portable 230v Induction Heater

For bearings with a bore diameter from 20mm to 300mm & up to a maximum weight of 40kg

## TWIM 15

### Mobile 230v Induction Heater

For bearings with a bore diameter of 20mm and a maximum outer diameter of 320mm & up to a maximum weight of 20kg
